

Please note, these instructions are for Desktop and iPhone. The instructions will vary depending on the phone.

## Mox Box (best on desktop)

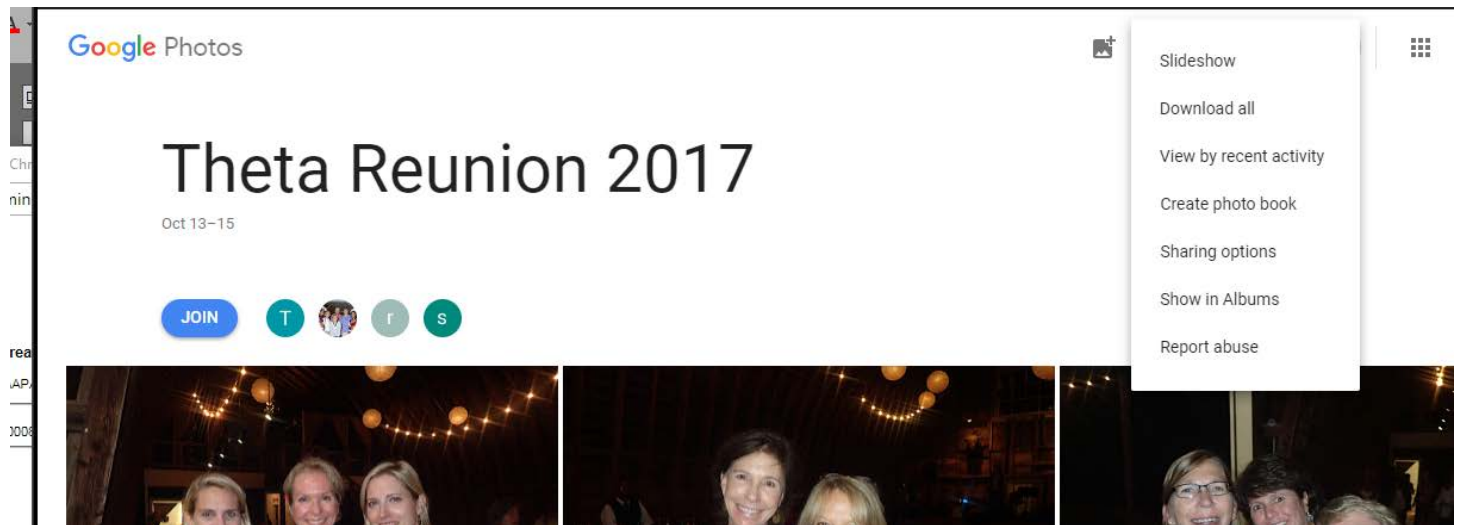

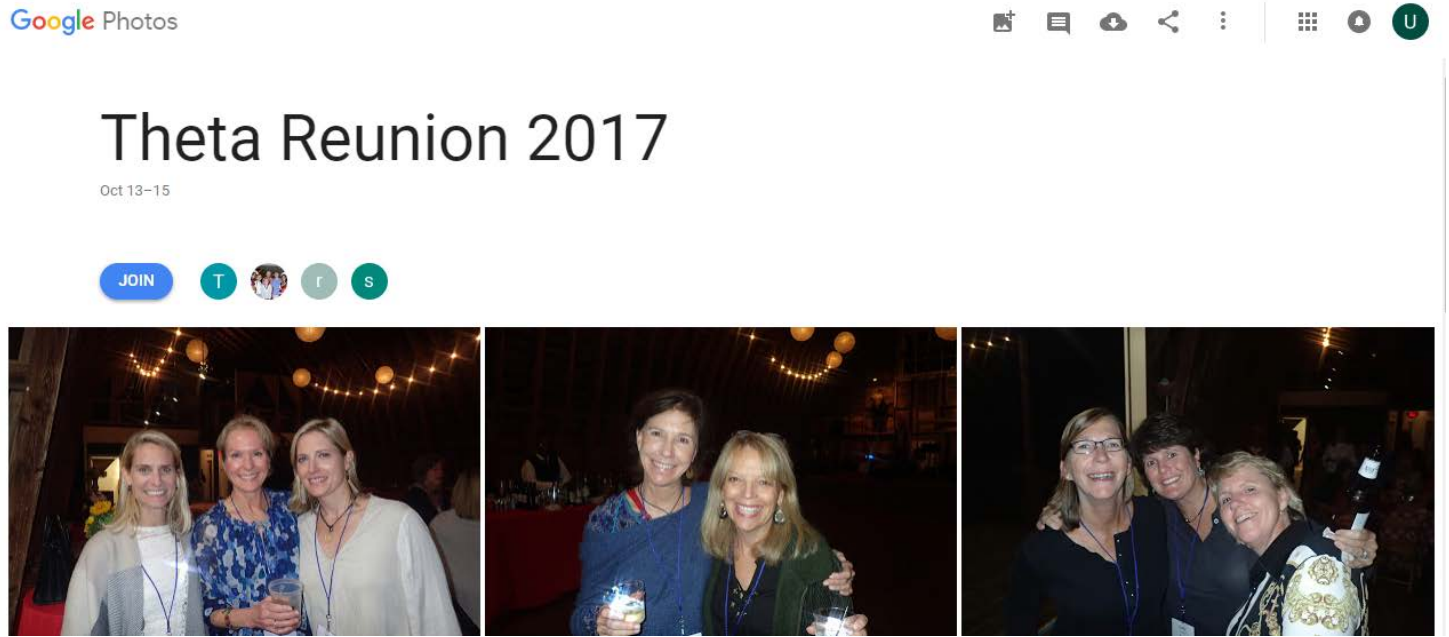

Mox Box photos will take you to a Facebook page. Here, you will need to: select a photo, right click & hit save image as. (photos below on how-to)

## Album I

(on iPhone) The link takes you to Google Photos. Select a photo to download and select the three dots. Click download and it will save in your Camera Roll.

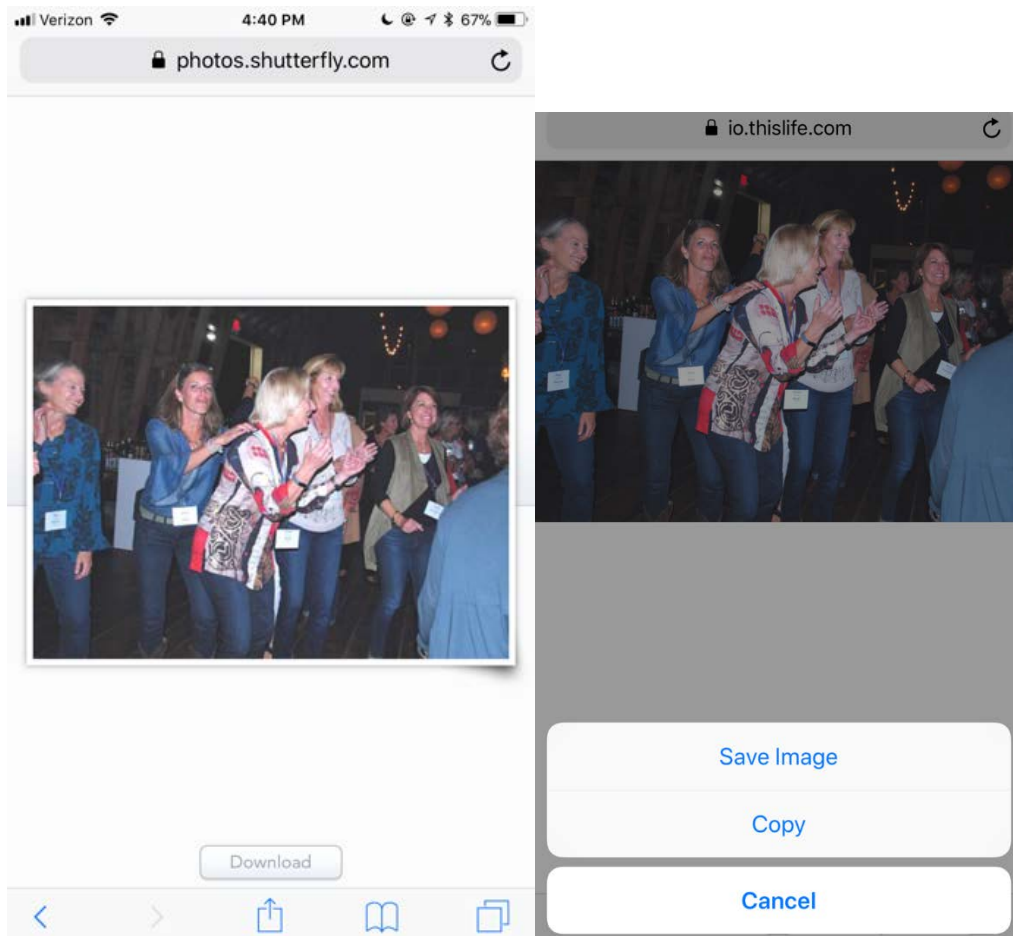

(on Desktop) The link takes you to Google Photos. Go to the far right and select the three dots & select download all. A zip file will download and the photos will appear there. (photos below on how-to)

## Album II

36 photos on Shutterfly

(on iPhone) Shutterfly link will open > View Photos > Select Download > Tap on photo > Click Save Image > Image will appear in Camera Roll

(on Desktop) Shutterfly link will open > Select Download (photo below on how-to) > Will download to computer

Shutterfly
